This document describes how to setup your computer to dial WNC ONLINE anytime you or your computer request information from another computer (or the Internet).

Open Internet Explorer

Click the "Tools" menu

Click "Internet Options"

Click the "Connections" tab

Look for the connection named "WNC ONLINE"

Highlight "WNC ONLINE" and click the "Set Default" button, if WNC ONLINE is not the default.

Check the option labeled "Always dial my default connection"

Click the "OK" button

Close Internet Explorer

When you open Internet Explorer or any other application that requires information from the Internet, your computer will try to connect to the Internet.
