Type a name for the computer you are dialing: "WNC ONLINE"
Click the "Next" button
Select a modem: (if you are not sure, use the default listing)
Click the "Next" button
Type the phone number for the computer you want to call:
Area Code: 828   Telephone Number: 6526480
Country Code: United States
Click the "Next" button
Click the "Finish" button

Advanced Settings:
From the Dial-up Networking Window
Right Click on the connection you just created: "WNC ONLINE"
Click "Properties"
Uncheck the check box beside "Use Country code and ...."
Click the "Server Type Button"
Under Advanced Options:
Only "Enable Software Compression" should be checked. Uncheck all others
Under Allowed Network Protocols:
Only "TCP/IP" should be checked. Uncheck all others.
Click the "OK" button Twice.

Internet Explorer 5.x and/or 6.x:
Go to "Start", "Settings", "Control Panel"
Double click "Internet Options"
In the "Home Page" address box type: www.wnconline.net
Click the "Apply" button
Click the "Connections" tab across the top
Click the "Setup" Button.
Click the option "I want to setup my Internet Connection manually ....
Click the "Next" button
Click "Through a phone line and a modem ....."
Click the "Next" button
Enter the phone number to be dialed: 6526480

Uncheck the box "Dial using area code and country code"
Click the "Next" button
Enter your username and password
Connection name: "WNC ONLINE"
Click the "Next" button
Do you want to setup an Internet Mail Account: "No"
Click the "Next" button
Click "Finish"

Advanced Settings:
From the connections tab.
Double click the "WNC ONLINE" connection you created.
Uncheck "Automatically detect ...."
Uncheck "Use Automatic configuration ...."
Uncheck "Use a proxy ...."
Enter your username
Enter your password
Leave the "Domain" field blank.
Click the "OK" button

From the connections tab.
Make sure that "(Default)" is beside the connection you want to use when dialing.
If not, highlight the connection and click the "Set Default" button.

There are several different versions of the Internet Connection Wizard, so your system may vary slightly, but this is the general setup that should work for most everyone.

TIP:
Download the newest version of Internet Explorer that is available for your computer. You may use either the "Windows Update Site" or the "Internet Explorer Site", both of which may be accessed from our support page. "www.wnconline.net/support"
